The details shot.

You have probably spent hours and hours carefully picking various details of your wedding and we enjoy photographing them as part of your day's story! Please gather all of your wedding details and have them available for us to shoot when we arrive. After greeting you, we'll begin taking detail photographs while your hair and makeup are being done. We suggest gathering these items in a box ahead of time.

Quick tip: If you want clutter-free images, designate a room or a section of the room as the bag area and keep most of your belongings there.

The Space

A bride in a white dress is looking into a round mirror in a dressing room. The room is decorated with flowers and a vanity table with wedding accessories. The bride is looking at her reflection in the mirror, which shows her in profile. The room is bright and airy, with a window in the background. The bride is holding a small clutch bag and looking at her reflection. The room is decorated with flowers and a vanity table with wedding accessories.

After your venue and ceremony area, the getting ready space is the most important location on your wedding day. It's where you'll spend the morning with your wedding party, getting ready and having photographs taken. When picking a location for getting ready, look for an open space with plenty of natural light. Consider renting out a lovely Airbnb or boutique hotel room if the space provided by your venue does not seem to be a suitable fit.

Getting Ready

We like to capture your excitement and emotion while you prepare – those priceless moments with your bridesmaids, mother, sister, or anyone else who is assisting you. These photographs usually end up being our favourites. It's also where we begin to make our connections with your bridal party leading up to the wedding.

This part is primarily candid. However, we try to make sure everyone is mostly ready before we start photographing. You probably don't want a photo of yourself with half-done makeup or hair. This goes for you to hubby to be.

You'll want to ensure that you're getting ready in a way that you'd want to be captured in photos. It's absolutely up to you how you go about doing so. For some brides, having their bridal party wear matching outfits is the way to go. Others would think of it as giving everyone a customised shirt or robe to wear while getting their hair and makeup done. After all, you're not just making memories on your wedding day; you're also preserving them.

The Ceremony

We do. This is the moment you've been looking forward to. It's easy to get caught up in all the preparations and stress but remember the most important thing is that this is the beginning of your lives together as a married couple the vows and promised made are the only moment that actual matter. Savour this moment!

Depending on the ceremony they last approximately 30 minutes to an hour.

Two important tips that we have, are asking your officiant to announce that you will have the first kiss (you'll be surprised) then moving out of the way before the first kiss so they aren't in the background of the photo and holding your kiss longer than usual for lots of shots!

I know I know we have to request.

but we're awkward in photos..

That's one of the most common worries we hear. When this concern is brought up, it typically means "I've never had professional photos taken before" or "I'm awkward/nervous in front of the camera" will always answer this concern with "It doesn't matter!" Because contrary to belief your wedding photos are not just to capture some beautiful picture, but for freeze a moment in time that belongs to you. So be yourself we will help with the rest.

You won't be stiffly posed or nervously standing in an uncomfortable position long enough to wonder what your hands are meant to do. Expect to be reminded of the power and beauty of your love story by laughing until it hurts and running around like weirdos. We will never try to change you into something you aren't; instead, We will give you the freedom to be the fullest version of yourself because we believe that's where beautiful imagery emerges.

You'll leave with hundreds of photographs capturing your love for each other. Believe us when we say you're going to look amazing!

Be yourself

The Wedding Party

It's time for the wedding party pictures and as much as your guests have come to support you on this special day, people do not like to be waiting around and we need to think about the older generation. So our aim will be to take the main group photos first, then dwindle down and only have the couple remaining.

It's important to ensure that we know the full dynamic of the family set up so there are no awkward call outs.

Also, a major thing to point out here, everyone will want to pull out their phone to take photos, which we love because some moments are needed from another view line. BUT....you have paid us to do a job, so we allow your guest to take their photos, then request that they don't while we take ours, that's why we start with group photos and send them on their way :-)

The Reception

You've done it! Woohoo! You're married, it's time to celebrate! we'll shoot some candid and group shots during the reception, so if you have any friends or extended family members you need photos with, now is the time! During the reception, a lot of things happen and we'll photograph everything. You have the freedom to make the reception your own! The possibilities are endless!

Here are the usual reception events:

- grand entrance
- toasts
- first dance
- parent dances
- bouquet toss
- garter toss
- cake cutting
- grand exit
